We work in conjunction with the National Fire Safety Council, Inc. for our Firepup Program. They send out letters to the local businesses in Sapulpa requesting donations for the Fire Prevention Materials that we purchase for the Children in the Sapulpa Public School System. Last year with the \$2700.00 collected from the donations that were sent in and purchases by the City of Sapulpa Fire Department, we distributed over 2800 pieces of Fire Prevention Materials for children of all ages in our School System during the second full week of October. We are hoping this year to bring some new materials to the children in 2015.
